

Town of Innisfil

25th Side Road Reconstruction Project

About the Study

The Town of Innisfil has completed the preliminary design for the 25th Side Road Reconstruction project from Innisfil Beach Road to Big Bay Point Road. The redesigned corridor adds new features that will enhance travel for those walking, rolling, cycling, and driving through the addition of sidewalks, cycling facilities and traffic calming features. The redesigned corridor will support active transportation and improve the safety of all road users as Innisfil continues to grow.

The Town redesigned the corridor with the intention of promoting active lifestyles, addressing traffic concerns, improving the quality of life, and addressing the climate crisis through expanding transportation choice for both its residents and visitors. The proposed design will create more room for residents to walk, bike, and roll around Innisfil while also meeting the needs of residents and visitors who drive.

Study Process

The preliminary design for the Innisfil 25th Side Road Reconstruction was completed in accordance with due process of Phase 1 and Phase 2 of the Municipal Class Environmental Assessment. The preliminary design of the corridor was developed and refined through a data-driven process and public and agency consultation.

Notice of Review Period

This notice announces the start of the 30 calendar-day public review period for the 25th Side Road Preliminary Design Report in accordance with the requirements of the Environmental Assessment process. The review period will begin on October 13, 2022.

The 25th Side Road Preliminary Design Report is available for viewing beginning October 13, 2022 at the Town's Municipal Office:

2101 Innisfil Beach Road, Innisfil ON L9S 1A1
Monday to Friday 8:30 AM to 4:30 PM
Or online at www.getinvolvedinnisfil.ca/25th

Please provide all written comments to the study's project manager by November 13, 2022:
