

Notice of Construction

Tatham Engineering is providing the following information and details on behalf of the Town of Innisfil to residents and property owners regarding the Alcona Sewer and Drainage Improvements project.

Closure Location & Objective

Residents and business owners in Alcona and the surrounding area are advised that the Town of Innisfil is conducting a complete road closure on Tall Tree Lane at Leonard's Creek crossing.

The primary objective of this closure is the removal and replacement of the culverts under Tall Tree Lane.

Closure Details

The scope of work includes the following:

- removal of existing culverts
- installation of box culvert under road
- reinstatement of asphalt and all disturbed areas

Closure Schedule

Dufferin Construction Company is scheduled to begin the road closure on Monday, October 6th, 2025, and expecting to remove the closure on Friday, October 17th, 2025.

Please note this schedule is subject to change based on several factors including inclement weather, unforeseen conditions, additional work required, the contractor's ability, etc. Tatham Engineering and the Town of Innisfil will endeavor to keep residents aware of major schedule changes, should they arise.

Site Safety

Construction involves the use of heavy equipment and the unavoidable creation of obstacles and possible hazards (excavations, etc.).

These circumstances are often attractive to children, and as such, we ask that you caution your children to stay clear of the working area. If they must walk by the construction activity, small children should be accompanied by an adult.

The contractor is required to conduct the work in a safe manner, including fencing of deep excavations, if required. We ask that you take extra caution during the construction period to ensure everyone's safety.

Property Access

Crystal Beach Road will be accessible to local traffic and emergency vehicles only, with no through access at the closure. Included with this notice is a detour map for residents to follow for property access.

Emergency access will be maintained at all times.

Project Contacts

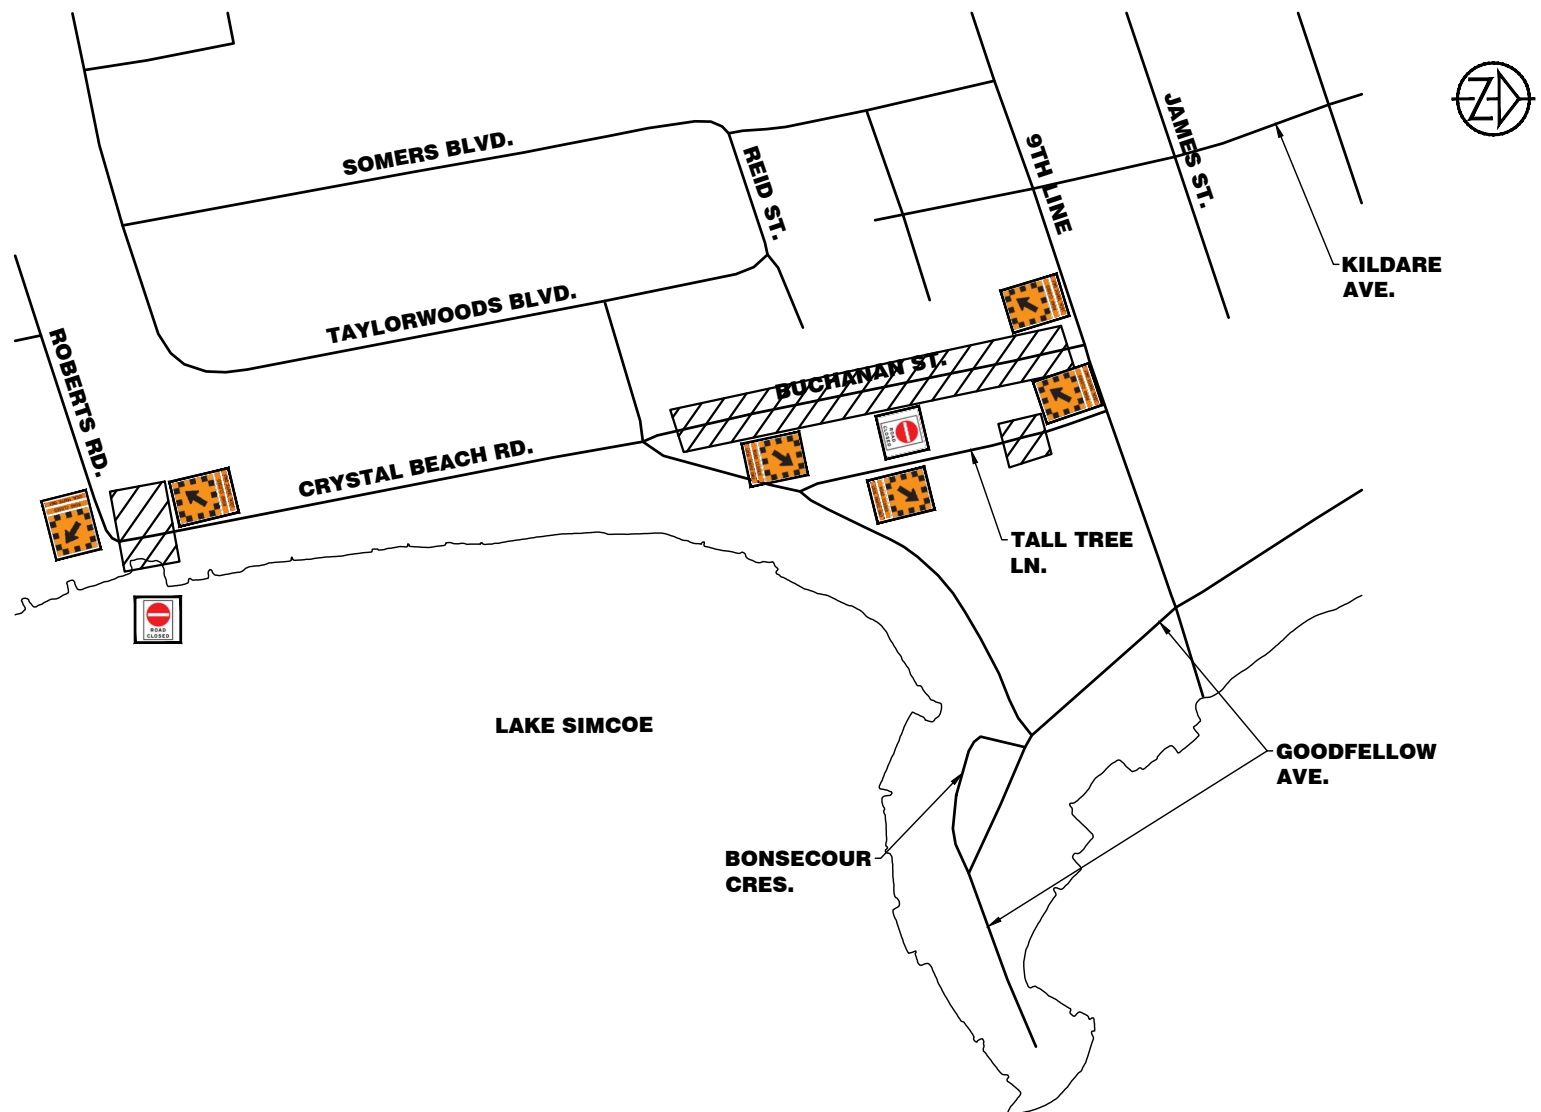

If you have any questions or concerns of a general nature, please contact Tatham Engineering.
