Justification Letter

Re: 1155 Big Bay Point Rd. Innisfil, ON.

The following is our justification letter for a relief on interior side yard setbacks for the demolition of an existing carport for new carports with dwelling units above.

3.0 Purpose of the Application

3.1 Nature and extent of relief applied for (include section(s) of the Zoning By-law):

- We are applying for relief on the Interior side yard setbacks from 3m in accordance with Table 4.2a in the Zoning By-law to 0.66m at the proposed wood deck entry and 1.86m to proposed carport with dwelling above.

3.2 Why is it not possible to comply with the provisions of the Zoning By-law?

- The Existing carport (which is to be removed) had a setback of 0.52m. We will be greater than that being 0.65m but to fit a car in the proposed carport comfortably based on where the existing dwelling sits on the lot and have good space in the new dwelling above, we needed to build past the required 3m setback. With that we purposely stayed back from the existing carport setback to not make this situation worse and actually improved the setback distance.

For the reasons mentioned above we believe our proposal is complete and justifiable for the work being proposed. We have done our best to ensure the least amount of site impact takes place to accommodate this new work.

I trust this is satisfactory to you, please let us know if you have any questions.
