

NOTICE OF STUDY COMMENCEMENT

6th Line Interchange Municipal Class Environmental Assessment

The Town of Innisfil has initiated a Class Environmental Assessment (EA) for a proposed interchange at 6th Line and Highway 400. The 6th Line Interchange project is being planned as Schedule C project under the Municipal Class Environmental Assessment (2007) process, as amended in 2011 and 2015. The EA Study will confirm project need and justification, document existing environmental conditions, examine alternatives and define the interchange design.

The EA will review the Town's Transportation Master Plan to confirm it satisfies Phases 1 and 2 of the Municipal Class EA for a Schedule C study, and will complete Phases 3 and 4 of the Class EA for the proposed interchange. The Municipal Class EA will engage the public in determining a recommended plan for improvements.

A draft Study Design is available on the Town of Innisfil web site www.innisfil.ca/. The Study Design describes the project scope, study approach, need and justification of the study, study process and preliminary design criteria.

The first Public Open House (POH) meeting will be scheduled for this project in the late spring. A POH notice will be published at that time. Persons wishing to be included on the study mailing list should contact the Study Consultant below. Notices and updates will be posted on the Town of Innisfil web site www.innisfil.ca/.

There is an opportunity at any time during the EA process for interested persons to provide comments. Any comments received pertaining to the study will be collected under the Environmental Assessment Act and, with the exception of personal information, will become part of the public record.

For more information, to provide comments or if you wish to be placed on the study's mailing list, please contact:
