

TOWN OF INNISFIL
7th Line Improvements
Schedule 'C' Municipal Class Environmental Assessment
Notice of Study Commencement

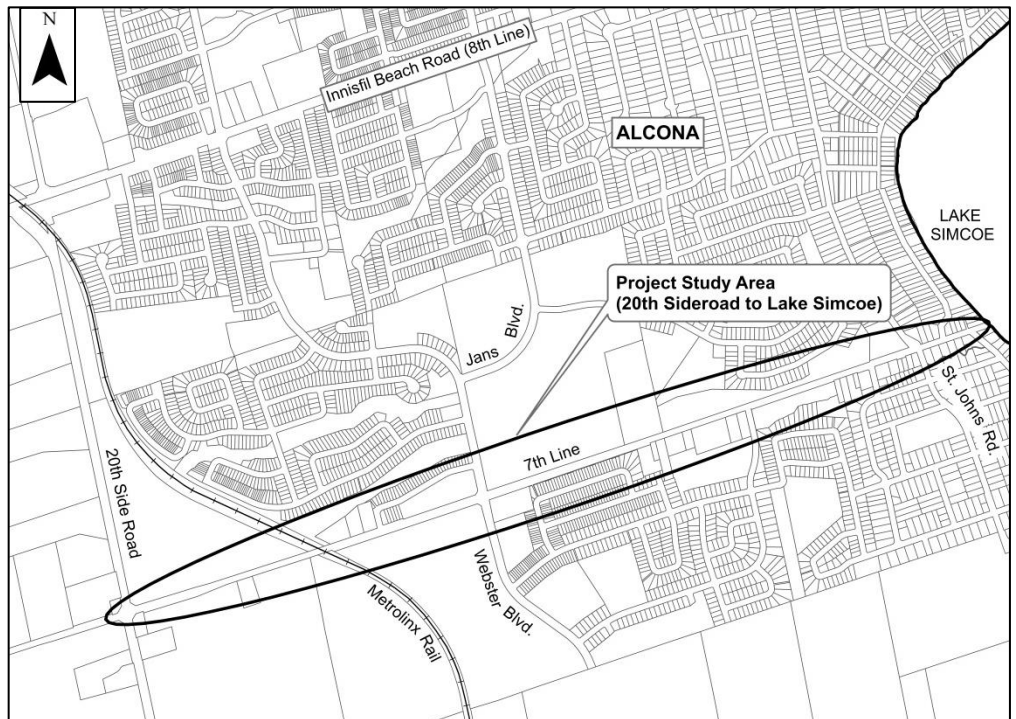

The Project

The Town of Innisfil has retained the services of the Ainley Group to undertake a Municipal Class Environmental Assessment (Class EA) to facilitate improvements to the 7th Line extending from the 20th Side Road to Lake Simcoe, a distance of approximately 3.0 km, as illustrated in the accompanying study map. This project has been initiated to accommodate future growth in the Alcona area and to address capacity and operational deficiencies affecting the subject corridor. As part of this project, improvements will be made to the existing road cross-section and intersections including provisions for active transportation (i.e. walking, cycling etc.) and municipal servicing.

The Process

This project will follow the Schedule 'C' planning and design process in accordance with the *Municipal Class Environmental Assessment (Oct. 2000, as amended 2007, 2011 & 2015)*. Two Public Open Houses will be scheduled during this process and notification will be provided in advance. Interested parties will have the opportunity to review the design alternatives under consideration and to provide input in the selection of the preferred design.

During the course of the project there will be on-going field investigations and data collection in the area of the 7th Line. Public cooperation is greatly appreciated.

Comments Invited

Public input is encouraged throughout this process and will be given consideration during the planning and design of this project. Information will be collected in accordance with the *Municipal Freedom of Information and Protection of Privacy Act*. Project updates and notices will be posted on the Town's website www.innisfil.ca/7thea to inform the public of the Class EA process. With the exception of personal information, all comments will become part of the public record. To obtain additional information or to provide input, please contact either of the following members of the study team:
