

**Notes:**

1. Lowered section of watermain to be same material and class as existing.
2. All dimensions are in millimetres unless otherwise shown.
3. All joints to be mechanically restrained, including joints on existing watermain.
4. Length of water pipe to be centred at the point of crossing so that the joints will be equidistant and as far as possible from the sewer.
5. Insulation required for storm sewer or culvert crossing.
