7th Line Improvements – Yonge Street to 20th Sideroad

Construction Notice

Dear Resident,

Tatham Engineering Limited was retained by the Town of Innisfil to complete the detail design and construction supervision of the 7th Line Improvements from Yonge Street to 20th Sideroad. The Town of Innisfil has awarded the construction contract to Georgian Paving Ltd. (a division of Miller Paving Ltd.). Work will include replacement of road crossing culverts, widening of the road to accommodate a 1.5 fully paved shoulder for active transportation, and new asphalt pavement.

Construction Schedule and Working Hours

The Contractor is scheduled to mobilize on October 14, 2025, and works are anticipated to be completed in 10 weeks (weather depending). Working hours are anticipated to be between 7:00 am to 6:00 pm. Some work on Saturdays may be required. While the contract states a substantial completion date of mid-November, depending on the weather, the contractor may be required to return in the summer of 2026 to complete any remaining works, such as paving the surface course asphalt (2nd coat) as it is temperature sensitive.

Public Road Access and Traffic Disruptions

Traffic disruptions will occur during construction. Driveway access to your residence or business will be maintained throughout construction, except for temporary disturbances during driveway culvert replacement and restoration, if required. Please refrain from parking your car on the road during construction hours. For temporary driveway disturbances, the Contractor will advise where to park. **A full closure of the road is scheduled with access to local**

traffic permitted only. Detours will be set up for 6th Line as required for through traffic. The school bus consortium, waste services, and emergency services shall be notified and coordinated by the contractor accordingly. Notices of any changes to the road closures or detours will be provided with as much notice as possible.

Additional Information

Due to the nature of construction, load noise and dust may occur during daytime hours. We thank you in advance for your patience and cooperation. Should you have any questions or concerns related to this project, please contact the undersigned or Customer Service at either 705-436-3710 or <https://innisfil.ca/en/my-government/customer-service.aspx>.
